Dear Doctor,

Working closely with many dentists from all over the country, we are in a position to observe many trends in dentistry and dental practice management. Unfortunately, two busy dental practices that we work with were the victims of embezzlement in 2009. In both dental offices, (one on the East Coast and one in the Midwest), small amounts of money were misdirected on a consistent basis, thus avoiding any “big red flags” until the practices lost \$68,000 and \$73,500 respectively. Neither would have ever expected that this would happen to them.

Enclosed please find an article from the February 2010 issue of *Dentistry Today* that addresses this troubling trend in detail. *Please understand that Albert Tassi Dental Studio values all of your current staff members and that we are in no way implying that any of your trusted employees are potential trouble to you!* This is merely an added value courtesy from our lab reminding you to review your current protocols and practice management procedures for any future hires.

As always we wish you full chairs and miles of smiles in 2010!

Your partner in Fixed , Removable, and Implant prosthodontics,

Albert Tassi, CDT
